If you have verified a real ICE raid is taking place, inform your local raids response network. Make sure to provide as much information as you can (video, photos, etc.).

Please verify if you see actual ICE or CBP activity happening. We don't want to create unnecessary panic and fear.

A raid may be happening if you see:

- Several vehicles are parked haphazardly and agents are setting up tents, or there are buses or vans nearby.
- Agents are convening in a place that is not near a federal building or known immigration enforcement office, gathering at a worksite or in public where there is a lot of foot traffic.
- Agents are actively approaching people and asking them questions.

If you see a social media post announcing a raid or immigration agent activity, please verify before reposting.

If you see an ICE raid or someone being detained by ICE, you have the right to document. Try your best to not engage with ICE (for your own safety).

When documenting try to take down/record as much info. as you can (Badge#, vehicles, uniform, etc.).

Size/strength
"5'10, 6' Armed Agitators"

Actions/Activity
"Harassing random people."

Location + Direction
"Immigration, Princeton Ave."

Uniform/Clothes
"Dark jackets / ball caps"

Time + Date
"7:00pm, June 01"

Equip. + Weapons
"Pepper spray, etc."

ICE agents can be hard to identify because they are allowed to lie. They can hide their badges and try to act like local police.
